

Backlog

○ WQ-12a Non-Tribal Permits

- *FY12 Backlog Results: 79%* (see table below)
 - Region 10 as a whole was at 79% current and therefore did not meet the National Goal of 90% current or the Regional commitment of 80%
 - This is an increase from the prior two years, which were around 75% current
- *FY13 commitment: 78%*
 - R10 initially bid 75% but raised commitment to 78% after we asked them to bring it closer to FY12 result levels
 - States continue to have resource issues that slow down permit issuance
 - There is a settlement agreement with the Idaho Conservation League to reduce the backlog in Idaho by 2014
 - R10 is on track to meet the terms of the agreement
 - R10 met the issuance goals for FY11 and FY12
 - HQ is working on several permits in R10 to help with the backlog
- *FY13 draft mid-year results: 87%* (see table below)
 - Draft results indicate that Region 10 as a whole is at 87% current
 - May change through the QA/QC process happening now
 - Overall this is an increase over FY12 results
 - Increase in AK numbers is due mainly to an updated Suction Dredge Mining General Permit facility count
 - Increase in OR numbers is due mainly to the inclusion of the CAFO General Permit which was left out last year
 - Decrease in ID numbers is due mainly to fewer NOIs being submitted under the reissued CAFO general permit
 - The difference in WA numbers from FY12 and FY13 may be due to better data following migration from PCS to ICIS.

○ WQ-12b Tribal Permits

- *FY12 Backlog Results: 60%* (see table below)
 - Region 10 as a whole was at 60% current for end of year FY12 reporting and therefore met the Regional commitment of 60% current but did not meet the National Goal of 90% current (see table below)
 - This is an increase from prior two years, which were at 55% and 52% current
 - Resource constraints and competing issuance priorities due to lawsuit settlements, in addition to nutrient and ESA consultation issues slow down permit issuance
- *FY13 commitment: 60%*
 - Region 10 kept the same commitment level as FY12
- *FY13 draft mid-year results: 64%* (see table below)
 - Draft results indicate that Region 10 as a whole is at 64% current
 - May change through the QA/QC process happening now
 - Overall this is an increase over FY12 results

Region 10 Non-Tribal Backlog Results FY12 End of Year and Draft FY13 Mid-Year						
State	FY12 End of Year			Draft FY13 Mid-Year		
	Total Facilities	Current Facilities	Current %	Total Facilities	Current Facilities	Current %
AK	3,927	3,288	83.7%	5,126	4,747	92.6%
AK (EPA)	232	154	66.4%	236	148	62.7%
ID (EPA)	379	146	38.5%	272	117	43.0%
OR	1,305	920	70.5%	2,142	1,561	72.9%
WA	1,774	1,522	85.8%	2,075	1,970	94.9%

OR	4	2	50.0%	5	2	40.0%
WA	52	35	67.3%	47	37	78.7%
Region Total	74	44	59.5%	75	48	64.0%

Permits Greater than 10 years Expired

- 8 Non-Tribal Major permits
 - Several of the OR permits are expired and the facility did not submit an application for permit reissuance
- 1 Tribal Major permit
- 42 Non-Tribal Minor permits
 - One permit is expired and the facility did not submit an application for permit reissuance
 - 6 of these are Alaska Native villages
 - In the 1970's EPA issued a notice of a list of native villages in Alaska which EPA was going to treat similar to the 301(h) program

- The facilities have been recently transferred to Alaska as part of the NPDES program approval but the authority used by EPA to exercise discretion in permitting native villages did not transfer to the state.
 - As a result, if the state issues an NPDES permit to one of these village POTW's they must issue a secondary treatment permit, which is not practicable in many situations for a host of reasons.
 - The Region is currently working with the state on a strategy to address these villages, but it will not likely result in any of these permits being addressed this year.
- 3 Tribal Minor permits
 - One permit is expired and the facility did not submit an application for permit reissuance
- 5 (soon to be 6) Non-Stormwater General permits
- These numbers are relatively high compared to other Regions

Priority Permits

FY12 Priority Permit Issuance

- Region 10 as a whole met commitments for WQ-19a (State-issued) and WQ-19b (EPA- and State-issued) Priority Permits
- This is the first time since 2009 that the Regions has met their commitment
- Only AK and EPA-issued AK permits did not meet issuance commitments

- Commitment numbers were lower than they were for FY11 for the Region as a whole, but about the same as previous years.

FY12 Priority Permits Issuance Region 10 End of Year Results				
State	Number of Priority Permits	Number of Priority Permits Committed to Issue	Number of Priority Permits Issued	Percent Issued
AK	76	10	4	40.0%
AK (EPA)	16	3	1	33.3%
ID (EPA)	52	10	16	160.0%
OR	125	19	21	110.5%
OR (EPA)	2	0	0	0.0%
WA	71	15	21	140.0%
WA (EPA)	21	4	7	175.0%
R10 State-Issued Total (WQ-19a)	272	44	46	104.6%
R10 State and EPA Total (WQ-19b)	363	61	70	114.75%

FY13 Priority Permit Commitments and Draft Mid-Year Results

- FY13 is the first year under the revised priority permit measure (see description in binder for details of what has changed)
- After discussions between the Region and HQ, 22 candidates in AK were removed (Alaska Native Village and 301(h) facilities) and a selection lower than 20% was accepted in OR
- Mid-year results show a low percentage issuance (see table below) but are currently being reviewed by Regions and States and numbers may change
- AK has several priority permits set to be issued in the next couple of months

Region 10 FY13 Priority Permit Commitments					
State	Number of Permits Expired Greater than 2 Years	Number of Priority Permits Selected	Percentage Selection	Number of Priority Permits Committed to Issue	Percentage Commitment
AK	98	20	20.4%	16	80.0%
AK (EPA)	2	1	50.0%	1	100.0%
ID (EPA)	122	24	19.7%	19	79.2%
